DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Harris (312-913-3303) on 9-23-04.

Amend claims 8-10 and 12-13 to depend from claim 2 (and not claim 1 which was cancelled).

Response to Arguments

The amendment filed 9-9-04 overcomes the examiner's prior art rejection and all claims are novel in his opinion. **Claims 2-4, 8-10, 12-14 and 24-33 allowed.**

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. The independent claims recite highly specific designs which are not found in the prior art of record and therefore deemed allowable in the examiner's opinion.

2. The amendment to independent claim 2 adds novel material as follows:

- receiving into the computer location data indicative of a location of the first mobile station corresponding to the diagnostic area.

- communicating the location data from the computer to the second mobile station:

- communicating the location data from the second mobile station to the remote entity via the communication path, thereby indicating to the remote entity the location of the first mobile station corresponding to the diagnostic data, wherein the diagnostic data and the location data are communicated together to the remote entity, wherein communicating the diagnostic data and location data comprises sending the diagnostic data and location data via FTP to the remote entity, and

- upon receipt of the diagnostic data and location data at the remote entity:

- analyzing the diagnostic data;

- determining that at least a portion of the diagnostic data meets a threshold; and

- responsively providing an alert message.

3. The amendment adds new independent claim 24 which discloses similar material as that of claim 1 along with the limitation of "...entering into an agreement with an owner or operator of the vehicle, establishing that the vehicle will carry the combination around the geographical area...".

Art Unit: 2683

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
